ABSTRACT

The objective of this research is to develop an action plan as a strategic alliance for the strengthening of family-school-community integration in the "Francisco de Miranda" Basic School of San Juan de los Morros, Guárico State. The variables that will be submitted to study are: the existing integration of the parents, mother, representatives or managers and community, with the teacher of the 4th grade section "B" of the aforementioned institution, the articulation between teachers, fathers, mothers, representatives or managers and community, in order to design an action plan that is aimed at strengthening such integration. The research will be framed under a qualitative approach and a post-positivist paradigm, on the project action research method, with a population of one (01) teacher, twenty-four (24) fathers, mothers, representatives, or responsible and one (01) of the community of the Basic School "Francisco de Miranda. The technique to use for the collection of information is the in-depth interview, it is a dialogue about experiences and experiences, where motivational roles are established. The selection was made under qualitative criteria with the desire and receptivity of the social actors of the process. This study seeks to involve the family, school and community in pedagogical activities, through a participatory and meaningful management by the subjects involved in the research.

Descriptors: Family- School-Community- Integration.
